

QUALITY POLICY

It is the policy of Ventilux Limited to operate a Quality Management System that will meet applicable requirements. Our Quality Management System will be appropriate to the purpose and context of the organisation, and support its strategic direction.

Ventilux Limited will strive to create a quality philosophy of "getting it right first time" through achieving and reviewing quality objectives, where all employees play an integral part in continuous improvement of the effectiveness of the Quality Management System.

The quality policy, mission statement, and the requirements of the Quality Manual are issued on the authority of Senior Management and their implementation is mandatory.
